Revenue Cycle Optimization

Revenue Cycle Optimization (RCO) improves patient outcomes by applying Medovent Solutions' staff augmentation approach which allows our clients to focus on each individual patient encounter. Medovent Solutions aligns with our clients to close gaps in care and improve quality measures through accurate documentation.

Medovent Solutions evaluates the types of consultants that can successfully support a client based on their specific needs. Understanding the current dynamic of a client's CDI program, along with applying that same practice to our consultants' expectations provides us the insight needed to identify the ideal candidate to support your program.

Employee Benefits

Improve Clinical Quality Measures, Productivity and Reimbursement

Bridge the gap between the clinical documentation and the codified record

The R1 CDI Solution focuses on ensuring accurate coding on every claim, clinically validating high-risk diagnoses, and facilitating interdepartmental collaboration between coding and physicians. The R1 approach combines technology and talent to deliver measurable results.

- **Up to 70% productivity improvement**
- **3-12% CMI improvement**
- **2-3x more collaboration with providers**
- **Up to 60% net revenue improvement**

Clinical Documentation Improvement

UASI CDI Services leverage clinical and coding expertise to support our client's reimbursement and quality strategy. We understand the value a comprehensive CDI program can bring to the financial success of our clients.

UASI works for top hospitals utilizing our experienced team of consultants to deliver value tailored to our client's specific needs. UASI's team of CDI Consultants can provide a variety of solutions to meet any client need, whether inpatient or outpatient:

CDI Staffing

Expert consultants available to meet any staffing need. Onsite, remote, interim management, full outsource; inpatient and outpatient.

CDI Audits

Client focused results delivered with education and recommendations based on CDI best practices, national benchmarking, and official regulatory sources

CDI Education and Training

Programs tailored to client needs for CDI staff, coders, physician CDI advisors, physicians; basic, advanced or topic-specific.

CDI Preceptors

Experienced CDI Preceptors partner with client's staff for new CDI professionals and ongoing support.

CDI Consulting

Full program evaluation and assessments of current state to advance CDI program and increase ROI; inpatient and outpatient.

Inpatient Utilization Review Staffing

Experienced UR consultants to meet any staffing need; onsite or remote.

Inpatient Clinical Validation Services

Evidence-based approach to capture clinical indicators and minimize clinical denials.

Outpatient HCC Services

Customized Outpatient CDI for specific Outpatient venues. UASI experts are leading development of best practices through progressive innovation.

Because Experience Matters.

A Partner to Depend On

Clinical documentation is the foundation for a strong revenue cycle program. Improving accuracy, fine tuning processes, and program optimization reduces patient errors and drives higher quality scores.

At GHR RevCycle Workforce, we specialize in helping healthcare organizations improve their clinical documentation program. From review and development, to staff augmentation, to end-user training, our experienced CDI experts can assist with every step.

Whether you're a healthcare facility looking for CDI support, or an established CDI professional ready to work with the top hospitals in the country, give us a call. We can help.
