

# Tech-Enabled, Physician-Led Clinical Documentation Program

Boost your revenue cycle performance, net revenue and impact on quality.

Combining the power of clinically intelligent technology with experienced physicians for the most effective medical record review in the industry.

## BUSINESS CHALLENGE

Reimbursement associated with value-based care depends on the accuracy of clinical documentation and integrity of the clinical record. Complete and accurate documentation drives optimal reimbursement and enhanced quality.

Clinical documentation and coding, and the alignment of the two, are top areas of vulnerability for lost or decreased revenue for hospitals. When the final coded data and the actual clinical scenario do not match, hospitals may miss reimbursement that would improve already razor-thin margins.

## PRODUCT OVERVIEW

Accuity's core service ensures accurate and compliant DRG assignment via a tech-enabled, physician-led multidisciplinary team assessment of DRG-defining diagnoses and procedures. Hospitals benefit from higher quality clinical documentation and coding so they can thrive in a complex, value-driven environment.

### Accuity's tech-enabled, physician-led documentation review:

- Occurs post-discharge but prior to billing
- Includes all inpatient DRG payers – MS/APR
- Ensures quick chart turnaround time for minimal impact on DNFB
- Intelligently segments and prioritizes cases for review of high-impact charts first

### Health system benefits:

- ✓ Significant, otherwise uncaptured revenue and incremental cash flow (100% self-funded)
- ✓ Average ROI of 350%+
- ✓ Unparalleled expertise as an extension of your team
- ✓ Better engaged and educated physicians
- ✓ Positive impact on publicly reported quality measures

### Financial Improvement

350%+ ROI

### Clinical Expertise

Team of trained physicians, coders and CDI specialists

### Proven Experience

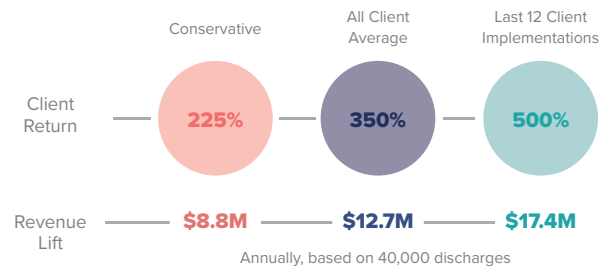

3M+ inpatient charts reviewed

### Physician Engagement

Data-driven physician education for improved documentation

## ESTIMATED FINANCIAL IMPACT

\*Compliant results include upgrade and downgrade chart changes.

*“Accuity’s solution is one of the best I’ve come across in the last ten years. Its high-quality physician-led review helps us ensure we have the most accurate clinical documentation possible, which has helped drive greater financial performance and quality measures for our health system.”*

- Tim Graham, Vice President of Revenue Cycle, One Brooklyn Health System

## TRY ACCUITY RISK-FREE
