

UASI CDI Services

UASI provides strategic solutions based on the unique CDI needs of each client. We leverage clinical expertise to support our client's reimbursement and quality strategy.

Staffing and Managed Services

- Expert IP/OP and UR consultants available to meet your coverage needs including full outsource engagements and staff augmentation.
- Experienced Clinical "Pre-Bill Assurance" Second Level Reviewers to assure all patient conditions are accurately represented in documentation and code capture prior to billing.

Assessments and Consulting

- Evaluation of current inpatient and outpatient processes to identify program strengths as well as opportunities to improve and ensure maximum effectiveness.
- Define an IP or OP CDI process to address identified documentation gaps, tailored to the organization's specific goals and opportunities.
- Focused risk assessments of the providers' HCC documentation and coding.

Quality Review Audits

- Customized audit elements to reflect clients' current CDI practices (concurrent, pre-visit, post-visit).
- Client focused results delivered with recommendations based on CDI best practices, national benchmarking, and official regulatory sources.
- Query compliance assessment included in all quality review audits.

Education and Training

- Education tailored to client needs for CDI staff, physician CDI advisors, and physicians.
- Customized to basic and advanced levels, or topic-specific.
- Experienced CDI Preceptors partner with clients' staff to develop new CDI professionals and provide ongoing support

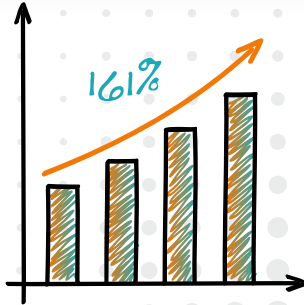

Testimonials from current clients:

"I have worked with UASI for many years, they are my go to for CDI. UASI provides experienced CDI staffing resources as well great products with their CDI assessment and their customizable CDI audits. Partnering with UASI is helping our CDI team continuously grow and improve."
