

## Case Study – Injuries and Burns Answer Sheet

Please list all possible conditions/diseases and procedures, if any, found in the medical record. For each condition/disease, identify the type of treatment/evaluation (e.g., drug, diagnostic study, etc.). For every applicable diagnosis code please assign the POA indicator. For each procedure, list the indication(s) for the procedure. Assign ICD-10-CM codes for all treated/evaluated conditions/diseases and ICD-10-PCS codes for all documented procedures.

Possible Physician Queries?

Rationale:

Check for signs of shock, sepsis, dehydration. Patient also could also be malnourished since the protein and albumin counts were low on 3/10/03. Physician also documented the patient was “ill kempt and dirty” on H & P.

AMA (Against medical advice) is also a discharge status.
